Section 6. All inconsistencies between the Building Code, Residential Code, Electrical Code, Plumbing Code and Mechanical Code as adopted by the Ordinance and Parts 2, 2.5, 3, 4 and 5 of Title 24 of the California Code of Regulations are changes, modifications, amendments, additions or deletions thereto authorized by California Health and Safety Code Sections 17958 and 17958.7.

Section 7. The changes and modifications to the California Building Code, California Electrical Code, California Plumbing Code, California Mechanical Code, and California Residential Code that have been enacted by this Ordinance are merely a continuation of similar changes and modifications made to earlier editions of such uniform codes, and all of such changes and modifications, whether previously enacted or enacted in this Ordinance, are reasonably necessary because of local climatic, geologic, and topographic conditions. In particular, the modifications to these codes are reasonably necessary because of the local climate which is characterized by hot dry summers, followed by strong Santa Ana winds and heavy winter rains which make structures particularly vulnerable to rapidly spreading, wind-driven fires and earth movement. Furthermore, the City is located near and over historic and active earthquake faults that require that special safety precautions be taken. Finally, the City's zoning ordinances and General Plan promote the preservation of natural shrubbery in addition to a great deal of landscaping. Canyon fires and other brush fires are a frequent and natural part of the Southern California ecosystem. Structures located in the City require additional protection against ignition from flying embers.

Section 8. The City Council hereby finds that the modifications to the State Building Codes in Titles 26, 27, 28, 29 and 30 of the Los Angeles County Code are reasonably necessary because of the local climatic, geological, and topographical conditions.

The City Council hereby further finds that the modifications to the State Building, Electrical, Plumbing, Mechanical and Residential Codes in Titles 26, 27, 28, 29 and 30 of the Los Angeles County Code provisions are necessary to allow the uniform application of the codes by procedures suited to the size and nature of the City's staff and administrative agencies by means suited to the City's experience with local climatic, geological, and topographical conditions and to provide sufficient staff support for the time-consuming inspections and analysis required by the City's fire and geological hazards.

Accordingly, the Council finds the modifications adopted in this Ordinance, to the State Building, Electrical, Plumbing, Mechanical and Residential Codes, are necessary for the protection of the public health, safety, and welfare.

Section 9. To the extent the provisions of this Ordinance are substantially the same as previous provisions of the Carson Municipal Code, these provisions shall be construed as continuations of those provisions and not as new enactments.

Section 10. **Severability.** If any section, subsection, sentence, clause, portion, or phrase of this Ordinance is for any reason held to be invalid or unconstitutional by a decision of any competent jurisdiction, such decision shall not affect the validity of the remaining sections, subsections, sentences, clauses, portions, or phrases of this Ordinance. The City Council hereby declares that it would have passed this Ordinance and each and every section, subsection, sentence, clause, portion, or phrase without regard to whether section, subsection, sentence, clause, portion, or phrase of the Ordinance would be subsequently declared invalid or unconstitutional.

Section 11. The City Clerk shall certify to the adoption of this Ordinance.

PASSED, APPROVED and ADOPTED this 7th day of February 2017.
