LEGAL DESCRIPTION

It is understood and agreed that the above description is approximate only, it being the intention of the Grantor(s) to grant an easement for said systems as constructed. The centerline of the easement shall be coincidental with the centerline of said systems as constructed in, on, over, under, across, and along the Grantor(s) property.

This legal description was prepared pursuant to Sec. 8730(c) of the Business & Professions Code.

Grantor further grants, bargains, sells and conveys unto the Grantee the right of assignment, in whole or in part, to others, without limitation, and the right to apportion or divide in whatever manner Grantee deems desirable, any one or more, or all, of the easements and rights, including but not limited to all rights of access and ingress and egress granted to the Grantee by this Grant of Easement.

Grantor agrees for itself, its heirs and assigns, not to erect, place or maintain, nor to permit the erection, placement or maintenance of any building, planter boxes, earth fill or other structures except walls and fences on the hereinbefore described easement area. The Grantee, and its contractors, agents and employees, shall have the right to trim or top such trees and to cut such roots as may endanger or interfere with said systems and shall have free access to said systems and every part thereof, at all times, for the purpose of exercising the rights herein granted; provided, however, that in making any excavation on said property of the Grantor, the Grantee shall make the same in such a manner as will cause the least injury to the surface of the ground around such excavation, and shall replace the earth so removed by it and restore the surface of the ground to as near the same condition as it was prior to such excavation as is practicable.

Upon written request, Grantee shall relocate its facilities installed hereunder to another mutually approved area on Grantor's property and provided that Grantee has first been given an easement over such new area on terms identical to those set forth herein. Such relocation shall be at Grantor's sole cost and expense. Upon completion of the relocation, Grantee shall execute a quitclaim of this easement on terms reasonably acceptable to Grantor and Grantee.

To the extent Grantor removes the vehicle charging stations, and such removal is not part of a relocation, Grantor may, upon sixty (60) days written notice, terminate this easement. However, in no event will the vehicle charging stations be removed unless a structure is constructed in the parking area. Upon termination, Grantee shall have a limited right to access the property for the purpose of removing its facilities or Grantee may abandon its systems in place. In addition, upon written request, Grantee will execute a quitclaim of this easement on terms reasonably acceptable to Grantee and Grantor.

To the extent Grantee has not commenced the installation of the facilities within one (1) year of the execution date, this easement shall become null and void.
