**NOW, THEREFORE, THE PLANNING COMMISSION OF THE CITY OF CARSON, CALIFORNIA, HEREBY FINDS, RESOLVES AND ORDERS AS FOLLOWS:**

**SECTION 1.** The Planning Commission finds that the foregoing recitals are true and correct and are incorporated herein by reference.

**SECTION 2.** The Planning Commission finds as follows:

1. With respect to Site Plan and Design Review No. 1877-2021 to permit the design for an approximately 84.65-acre project with 1,567,090 sf of light industrial and supportive office uses within six buildings and approximately 12 acres of publicly accessible but privately maintained open space and commercial/community-use and amenity areas.
  - a) The Site Plan and Design Review package No. DOR 1877- 2021 is consistent with the District at South Bay Specific Plan with a General Plan Amendment (GPA 112-2021), the Carson General Plan and the Carson Municipal Code. The Project will have a General Plan designation of Light Industrial (LI) with GPA 112-2021 and Commercial Marketplace (CM) as per the District at South Bay Specific Plan.
  - b) Building architectural design, site design and open spaces will be compatible with existing and anticipated development in the vicinity. Light Industrial buildings display a modern aesthetic with abundant glazing and sleek edges. The Carson Country Mart commercial buildings exhibit an appealing Contemporary Country aesthetic combining warm and bold colors, rustic materials and simple roof forms.
  - c) The proposed landscaping conforms to the District at South Bay Specific Plan and the State's Water Efficient Landscape Ordinance (WELO) using native plantings and appropriate irrigation.
  - d) The proposed development will be constructed in one single phase.
  - e) Vehicular and pedestrian circulation is designed for convenience and safety.
  - f) The required findings pursuant to Section 9172.23 (D), "Site Plan and Design Review," can be affirmatively made.
2. With respect to Tentative Tract Map (TTM) No. 83481
  - a. Tentative Tract Map No. 83481 was reviewed on behalf of the City by LA County Department of Public Works, which determined that the proposed Tentative Tract Map meets the requirements of the City's Municipal Code and the State Subdivision Map Act, and recommended conditions for the final map approval which will be incorporated.
  - b. The Tentative Tract Map complies with the City's Zoning Ordinance and General Plan and is consistent with the intent of Article IX, Chapter 2, Section 9203 (Tentative

- Maps) of the Carson Municipal Code. The proposed subdivision, together with the provisions for its design and improvement, is consistent and compatible with the General Plan objectives, policies, general land uses, and programs. The proposed project advances the General Plan goals and policies related to land use, transportation, housing, and economic development.
- c. None of the findings requiring denial pursuant to California Government Code Section 66474 can be made.
  - d. The project site is suitable for the proposed project and will accommodate up to 1,567,090 SF of light industrial and supportive office uses within six buildings and approximately 12 acres of publicly accessible but privately maintained open space and commercial/community-use and amenity areas.
3. With respect to the CEQA Findings of Fact, Certification of the 2022 Supplemental Environmental Impact Report (2022 SEIR), Mitigation Monitoring and Reporting Program, and Statement of Overriding Considerations
- a. Adoption of Findings of Fact. The Planning Commission does approve, accepts as its own, incorporate as if set forth in full herein, and make each and every one of the findings contained in the Findings of Fact, a copy of which is on file in the Community Development Department.
  - b. Certification of Supplemental Environmental Impact Report. The Planning Commission certifies that (1) the SEIR has been completed in compliance with CEQA; (2) that it has reviewed and considered the information contained in the SEIR prior to approving the project; and (3) that the SEIR reflects the Planning Commission's independent judgment and analysis.
  - c. Mitigation Monitoring and Reporting Program. As more fully identified and set forth in the 2022 SEIR and in the Findings of Fact for this Project, the Planning Commission finds that the mitigation measures described and specifically identified in the above-referenced documents are feasible and shall become binding upon the entity (such as the Applicant, Developer or the City) assigned thereby to implement the particular mitigation measures as identified in the Mitigation Monitoring and Reporting Program.
  - d. Adoption of Statement of Overriding Considerations. Even after the adoption of all feasible mitigation measures and, certain significant or potentially significant environmental effects caused by the proposed modified Project directly, or cumulatively, will remain. Therefore, the Planning Commission issues and approves a Statement of Overriding Considerations which identifies the changes or alterations that are within the responsibility and jurisdiction of another public agency and not the agency making the finding, and that such changes have been adopted by such other agency or can and should be adopted by such other agency, and that they render the unavoidable significant adverse environmental effects acceptable, either in its current form or as may be modified or amended by the City Council. Additionally, the Statement of Overriding Considerations identifies the specific economic, legal, social, technological and other considerations that render the unavoidable significant adverse environmental effects acceptable, either in its current form or as may be modified or amended by the City Council.
  - e. Adoption of Mitigation Monitoring and Reporting Program. As required by applicable State law, the City Council adopts the Mitigation Monitoring and Reporting Program. The Planning Commission finds that the Program is designed to ensure that, during project implementation, the City and any other responsible parties implement the

project components and comply with the mitigation measures identified in the Findings of Fact and the Mitigation Monitoring and Reporting Program.

**SECTION 3.** The Planning Commission further finds that the proposed project is subject to the provisions of CEQA. A Supplemental Environmental Impact Report (SEIR) was prepared for the Project and associated Amendment to the District at South Bay Specific Plan and is certified by the Planning Commission in Resolution 22-XXXX.

**SECTION 4.** The Planning Commission of the City of Carson, pursuant to the findings noted above, does hereby: adopt the Findings required by CEQA Guidelines, Section 15091; certify the 2022 to the Final EIR (SCH No. 20050551059) for the District at South Bay Specific Plan; adopt a Statement of Overriding Considerations; and approve Site Plan and Design Review No. DOR 1877-2021 and Vesting Tentative Tract Map No. VTTM 83481, conditioned upon City Council's decision to approve the SPA, DA, and GPA and subject to the Conditions of Approval contained in Exhibit "B" and Exhibit "C" and incorporated herein by reference.

**SECTION 5.** This decision of the Planning Commission shall become effective and final 15 days from the date of the action, in accordance with Section 9173.33 of the Zoning Ordinance, unless an appeal is filed within that time in accordance with Section 9173.4 of the Zoning Ordinance.

**SECTION 6.** The Secretary shall certify to the adoption of the Resolution and shall transmit copies of the same to the applicant

**APPROVED and ADOPTED** this 18<sup>th</sup> of April 2022.
