6.4 Extraordinary Adjustments

The Company or the City may request an adjustment to the compensation paid to the Company at times other than those specified in Section 6.3, based upon unusual changes in the cost of providing service under this Agreement. The Company may request only one such adjustment during any rate year. "Unusual changes" may include changes in components of the disposal rate, changes in the disposal site requested by the City, changes in state or local government solid waste fees and charges, and changes in the law. These changes do not include inaccurate estimates by the Company of its proposed cost of operations. For each request, the Company must prepare a schedule documenting the extraordinary costs. The request shall be prepared in a form acceptable to the City with support for all assumptions made by the Company in preparing the estimate. The City shall review the Company's request and, in the City's reasonable judgment, make the final determination on the appropriate amount of the adjustment, if any. A requested adjustment may not be denied in the case of changed or additional services requested by the City, additional reporting required by the City, the City's designation of a transfer station, MRF, transformation facility, or disposal site (except for its initial designation under Section 4.6.C.), any change in the Municipal Code affecting the Company's operations, or changes in state or local government solid waste fees and charges.

The average tipping fee is the sum of the tipping fees at Puente Hills and DART, and then divided by two. The tipping fee used for this calculation shall exclude all federal, state and local taxes, fees and assessments levied on or applicable to the processing, transportation or disposal of solid waste at Puente Hills or DART.
