Executive Director Raymond summarized the staff report.

Garrick Newland, Vice President Development representing Macerich

Thanked the Carson Reclamation Authority for their consideration and look forward to starting the project.

Vice Chairman Santarina inquired about job creation that the project will generate.

Executive Director Raymond stated there are programs that generate the number of jobs based on variables related to the construction project.

Discussion ensued around the types of jobs that will be available and Local Hire.

Executive Director Raymond noted the Local Hire provision is part of the Langston contract. In addition, the Workforce Investment Board is providing assistance.

Mary Hashem

Stated RE| Solutions does not have local hire quotas, but has made a commitment to provide job opportunities to local workforce.

City Manager Farfsing provided the Mayor and Council a revised Resolution No. 18-04-CRJPA.

Authority Attorney Soltani noted amendments to Resolution No. 18-04-CRJPA as follows:

- Section 10. – Add Approval. “Based on the findings of public benefit and subject to the provisions hereof, the Conveyancing Agreement between the Carson Reclamation Authority, a California Joint Powers Authority, and CAM-Carson, LLC...” and another and the rest remains the same – “...Cooperation Agreement between the City of Carson, a California general law municipal corporation, and the Carson Reclamation Authority, a Joint Powers Authority, are hereby approved and shall be executed by Chairman and Mayor in a final form approved by the City

Attorney/Authority Counsel. The Executive Director shall take all necessary actions to implement the Agreements in accordance with their terms.”

She noted that the revised resolution is not addressing both the Cooperation Agreement and Conveyancing Agreement and will be added where needed. Therefore, she suggested to the board members to approve the provisions subject to the Authority Attorney’s modifications she just made.

In addition, she noted changes to the Conveyancing Agreement as follows:

- Section 19.2.2 on Page 41, under Re-processing the first word says following a final unappealable judgment of the highest that following going to change to up to 120 days following a final unappealable judgment of the highest court to decide if they are going to process their application. She further stated within 120 days Macerich needs to put Carson Reclamation Authority on notice. Macerich confirmed that they will give the City 120 days notice that they intend to apply for reapplication then have another 90 days to get their actual application for reprocessing.
- Section 19.2.2 – referred to eight lines from end of provision, revised to say “diminution in project value solely due to a discretionary new condition of city unrelated to compliance with the final adverse judgment.”
- Noted after parentheses is less than the greater of (x), that (x) changes to 1/% of the budgeted hard costs of the sub-foundation systems, the foundation systems and vertical construction of the project’s building core and shell (therefore excluding, for the avoidance of doubt, the remedial systems, design and engineering, tenant improvements, financing and other costs, and (y), that (y) needs to be removed and \$2.75 million so either 1% of the cost or \$2.75 million whichever is greater, which is the intent. In each case whether such conditions or mitigation measures are of the type allocated to Macerich as Vertical Developer under the Entitlements approved concurrently herewith, or of the type allocated to authority thereunder, but which Macerich must pay because Authority declines to pay. She further noted the need to clarify and make sure that \$2.75 million cap is on new conditions on the re-processing and not dealing with trying to make it cumulative with the current discretionary conditions being done on the City Council, which is the intent.
- Section 19.2.3 – Re-processing material adverse change needs to change to mean anything goes beyond \$2.75 million cap or anything going to diminish the value of the project and solely due to a discretionary new condition of the City unrelated to compliance with final adverse judgment.

Authority Attorney Soltani stated there were two additional cleanups – 6.2 being incorporated that Macerich understand making changes not substantive but consistent.

Authority Chairman Robles noted for the record to reflect the acknowledgement by Macerich of all changes, agreement of the terms, and intent.

Authority Attorney Soltani noted for the record that documents have been a working progress with everyone working hard and diligently and that these were the big business terms changed.
