

(1) 3D illuminated walk-through Ornament (14'x 12'). The durable weather resistant weighted metal is sealed and covered in LED rope and twinkly white lights.

The Interior passage way is lined with a shimmering reflective material for a classic luxurious look and feel.

Coordinating wall mounted half orbs and garden orbs will delightfully light up this area and be strategically placed for a great photo opportunity and elegant globe garden feel.

This is a wonderfully simplistic way to build upon The City of Carson's Holiday Decor Program.

City of Carson

Patio A Courtyard - Community Center

New Decor Option: Globe Garden

Lighted Walk Through Ornament

City Hall Bridge New Concept:

We suggest installing lighted orb arches to create a whimsical tunnel that coordinates with the optional globe garden theme.

These orb arches literally bridge the holiday decor for the Community Center and City Hall sections together perfectly.

Each arch is an individual piece for the length of the tunnel to be customizable to fit a portion or the full length of the bridge.
