Description

Issuing Procurement Unit Division of Purchasing & General Services Conducting Procurement Unit Division of Purchasing & General Services

Online Marketplace

SOLICITATION # MG20-81

This Request for Proposals ("RFP"), having been determined to be the appropriate procurement method to provide the best value to the Conducting Procurement Unit, is designed to provide interested Offerors with sufficient basic information to submit proposals. This Request for Proposals ("RFP") is issued in accordance with the Utah Procurement Code and applicable administrative rules of the Utah Administrative Code. If any provision of this RFP conflicts with the Utah Procurement Code or Utah Administrative Code, then the Utah Procurement Code or Utah Administrative Code will take precedence.

Purpose of this Solicitation

The purpose of this RFP is for the State of Utah to enter into a contract with a vendor to provide a solution to the following problem that the Conducting Procurement Unit is experiencing:

The State is seeking to provide users with an online digital marketplace to provide transactional items that may be used routinely and needed quickly to address the everyday needs of public entities, schools, and universities.

This RFP and resulting contract award(s) is a solutions-based solicitation, meaning the State of Utah is seeking equipment, products, and/or services that meet the requirements of this RFP and that are commonly desired or are required by law or industry standards. The State is looking to have one or multiple online marketplaces that are able to provide a diverse range of transactional items that could be used in and for an office, school, and/or other settings. Offerors may submit for **one**, **all**, **or a combination** of the following categories: Education-Based Accessories, Display, Products, and Related Supplies; Information Technology Peripheral Devices and Related Products; Maintenance, Repair and Operation Products; and Office-Based Accessories, Décor, Products, and Related Supplies. **When submitting for one or more categories, Offerors may subcontract items**. Offerors may include related solutions that are complementary to the categories and items identified in this RFP.

Given the cooperative nature of this RFP, it is expected that offerors shall propose a wide array of equipment, products, and/or services at lower prices and with better value than what they would ordinarily offer to the public or to a single government entity.

Background of the Conducting Procurement Unit

Online Marketplace

The State of Utah has identified the need to have a digital marketplace in order to provide the State and its entities the best prices. In previous years, the State of Utah had a contract for office supplies that was based on an established discount from list price. In wanting to determine if the discount from list price offers the best value to the State of Utah, a digital marketplace for office and schools supplies was obtained which utilized a more dynamic pricing model.

The State of Utah is now seeking an Online Digital Marketplace Solution across specific categories that offers a more dynamic pricing structure to ensure the State and its entities are continually receiving the best value. Under a dynamic pricing model, the State of Utah anticipates that the market establishes the best value and the State will not need to amend the contract when the market goes up or down. Additionally, by extending this contract nationwide, the benefits of this contract are not limited to the State of Utah. Presently, many public and non-profit entities utilize online marketplaces. By offering Participating Public Agencies the ability to utilize the resultant contract(s), agencies can lower costs through reducing procurement expenses, improve their compliance and reporting, and potentially support a wider range of diverse suppliers.

National Contract

The State of Utah, as the Principal Procurement Agency, defined in Attachment G, has partnered with OMNIA Partners, Public Sector ("OMNIA Partners") to make the resultant contract (also known as the "Master Agreement" in materials distributed by OMNIA Partners) from this solicitation available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit ("Public Agencies"), through OMNIA Partners' cooperative purchasing program. The State of Utah is acting as the contracting agency for any other Public Agency that elects to utilize the resulting Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with OMNIA Partners (a "Participating Public Agency") and by using the Master Agreement, any such Participating Public Agency agrees that it is registered with OMNIA Partners, whether pursuant to the terms of a Master Intergovernmental

Purchasing Cooperative Agreement, a form of which is attached hereto on Attachment G, or as otherwise agreed to. Attachment G contains additional information about OMNIA Partners and the cooperative purchasing program.

OMNIA Partners is the largest and most experienced purchasing organization for public and private sector procurement. Through the economies of scale created by OMNIA Partners public sector subsidiaries and affiliates, National IPA and U.S. Communities, our participants now have access to more competitively solicited and publicly awarded cooperative agreements. The lead agency contracting process continues to be the foundation on which we are founded. OMNIA Partners is proud to offer more value and resources to state and local government, higher education, K-12 education and non-profits.

OMNIA Partners provides shared services and supply chain optimization to government, education and the private sector. With corporate, pricing and sales commitments from the Vendor, OMNIA Partners provides marketing and administrative support for the Vendor that directly promotes the Vendor's products and services to Participating Public Agencies through multiple channels, each designed to promote specific products and services to Public Agencies on a national basis. Participating Public Agencies benefit from pricing based on aggregate spend and the convenience of a contract that has already been advertised and publicly competed. The Vendor benefits from a contract that generally allows Participating Public Agencies to directly purchase goods and services without the Vendor's need to respond to additional competitive solicitations. As such, the Vendor must be able to accommodate a nationwide demand for services and to fulfill obligations as a nationwide Vendor and respond to the OMNIA Partners documents (Attachment G).

Expectations for Deliverables by the Conducting Procurement Unit

The items listed in each category are not restrictive or exhaustive but included to provide a general description of products and supplies that may be included. Contract Award

It is anticipated that this RFP will result in multiple contract awards. The methodology or formula that will be used to determine the number of contract awards is based on the Cost per Points Ratio (Cost Proposal/Technical Points Received=Cost Points Ratio). All vendors within 300% of the lowest Cost Point Ratio will be awarded a contract.

Future Procurements

The State of Utah reserves the right and may reopen this solicitation, or create a new solicitation if it determines there may be more competition for the procurement item than when the original solicitation was posted.

Length of the Contract

The contract resulting from this RFP will be for FIVE (5) years or the time identified by the awarded vendors during the clarification phase. The Contractor shall have the right to enter local "service" agreements with Participating Public Agencies accessing the contract through OMNIA Partners, so long as the effective date of such agreement is prior to the expiration of the Contract. All local agreements may have a full potential term (any combination of initial and renewal periods) not to exceed five years. Although the scope reflects the needs and requirements of the State of Utah, OMNIA Partners Participating Public Agencies may have

different requirements. Participants may elect to negotiate certain terms to conform to their purchasing and contracting requirements.

PROPOSAL EVALUATION PROCESS

Stage 1: Initial Review

In the initial phase of the evaluation process, the conducting procurement unit will review all proposals timely received. Non-responsive proposals not conforming to RFP requirements or unable to meet the mandatory minimum requirements will be eliminated from further consideration.

Objective Criteria	Scoring
Objective Criteria	Methodology
Completed Attachment B - Key Personnel Form	Pass / Fail
Completed Attachment C - Price Proposal Form	Pass / Fail
Completed Attachment D - Project Capability	Pass / Fail
Completed Attached E - Marketing/Education Plan	Pass/Fail
Submission submitted in SciQuest on time (Vendor clicked submit and uploaded and answered all necessary documents and questions)	Pass / Fail
Completed Attachment G – Requirements for National Cooperative Contract to be Administered by OMNIA Partners, Public Sector	Pass/Fail

Stage 2: Technical Proposal Evaluation

Solicitation responses should indicate which categories that Offeror is responding to. In the responses, Offerors should: highlight experience as it relates to each category the Offeror is responding to, describe market presence to include any current presence at a national level, and indicate how Offeror would educate its team of the contract both within the State of Utah and nationally (such as how products would be distributed, a plan for meeting product needs from agencies, and how volume would be tracked and reported as necessary to the State of Utah and OMNIA Partners).

Solicitation responses that have received a passing score in each of the objective scoring criteria will then be evaluated by an evaluation committee appointed by the conducting procurement unit against the proposal evaluation criteria noted in this solicitation. Proposals will be evaluated against the evaluation criteria as follows:

Evaluation Criteria	Scoring Methodology	Weighting of Criteria	Total Possible Points Actual Score
Attachment D1 - Level of Expertise Plan (LE)	1, 5, or 10	45%	225
Attachment D2 - Risk Assessment Plan (RA)	1, 5, or 10	25%	125
Attachment D3 - Value Added Plan (VA)	1, 5, or 10	15%	75
Attachment E - Marketing/Education Plan	1, 5, or 10	15%	75
Total Technical Score		100%	500

The evaluation team will provide a score using the above mentioned methodology using the following:

- 1 point Offeror has demonstrated experience but was poor performing with supporting metrics
- 5 points Offeror has no experience or experience with no demonstrated or verifiable metrics
- 10 points Offeror has experience and is high performing with supporting or verifiable metrics

The evaluation committee, for this RFP, will tally the final scores for criteria other than cost to arrive at a consensus score by the following method: an average of the individual scores.

Offerors who receive a minimum of 425 Technical Criteria points will move on to the Cost Proposal stage.

Final Stage: Cost Proposal Evaluation

Pursuant to Utah Code Annotated (UCA) § 63G-6a-707(6), the cost proposal will be evaluated independently from the technical proposal; and as such, must be submitted separately from the technical proposal. Offerors must not include costs or pricing data in their responses to the Mandatory Minimum Requirements and the Technical Response.

Offeror must upload a completed market basket for each category that the vendor wishes to be considered for in the Questions section of this solicitation. If an offeror fails to upload a completed market basket, then its proposal will be considered non-responsive and the proposal will be rejected.

Failure to submit cost or pricing data separately will result in your proposal being judged as non-responsive and ineligible for contract award.

Offerors successful in the technical evaluation will advance to the Final Stage: Cost Proposal Evaluation. The Offeror with the lowest Cost Point Ratio will be awarded a contract. Any Offeror whose Cost Point Ratio is within 300% of the lowest Cost Point Ratio will also be awarded.

Total Cost will be computed by adding up the proposed cost for all the items in each market basket. The formula to compute the Cost Point Ratio is: Total Cost/Technical Points = Cost Point Ratio. This will be done for each category individually.

The State reserves the right to reject any Proposal if it determines that the Price Proposal is significantly unbalanced to the potential detriment of the State.

4 ★ Instructions To Supplier :

Offerors may request that part of its proposal be protected by submitting a Claim of Business Confidentiality Form. See the Buyers Attachment section.

Process for Requesting Non-Disclosure: To protect information under a Claim of Business Confidentiality, an Offeror must complete the Claim of Business Confidentiality form, at the time the proposal is submitted, with the following information:

- Include a concise statement of reasons supporting the claim of business confidentiality (Subsection 63G-2-309(1)).
- Submit an electronic "redacted" (excluding protected information) copy of the proposal. Copy must clearly be marked "Redacted Version."

The Claim of Business Confidentiality form may be accessed at: http://www.purchasing.utah.gov/contract/documents/confidentialityclaimform.doc

An entire proposal cannot be identified as "PROTECTED", "CONFIDENTIAL" or "PROPRIETARY".

Redacted Copy: If an Offeror submits a proposal that contains information claimed to be confidential or protected, the Offeror **MUST** submit two separate proposals: one redacted version for public release, with all protected business confidential information either blacked-out or removed, clearly marked as "Redacted Version"; and one non-redacted version for evaluation purposes clearly marked as "Protected Business Confidential."

All materials submitted become the property of the State of Utah. Materials may be evaluated by anyone designated by the State as part of the evaluation committee. Materials submitted may be returned only at the State's option.

Supplier Must Also Upload a File:

No

Prerequisite Content:

Any contract resulting from this RFP will include, but not be limited to the Standard Terms and Conditions.

Exceptions and/or additions to the Standard Terms and Conditions are strongly discouraged. However, any requested exceptions and/or additions to the Standard Terms and Conditions must be submitted as an answer to the corresponding question in the Question Section of this solicitation. Exceptions and/or additions submitted after the date and time for receipt of proposals will not be considered. Offerors may not submit requests for exceptions and/or additions by reference to a vendor's website or URL. URLs provided with a proposal may result in that proposal being rejected as non-responsive. Offerors may submit questions during the Question and Answer period regarding the Standard Terms and Conditions.

The State may refuse to negotiate exceptions and/or additions that are determined to be excessive; that are inconsistent with similar contracts of the procurement unit; to warranties, insurance, or indemnification provisions that are necessary to protect the procurement unit after consultation with the Attorney General's Office or other applicable legal counsel; where the solicitation specifically prohibits exceptions and/or additions; or that are not in the best interest of the procurement unit.

In a multiple award, the State reserves the right to negotiate exceptions and/or additions to terms and conditions in a manner resulting in expeditious resolutions. This process may include beginning negotiations with the Offeror having the least amount of exceptions and/or additions and concluding with the Offeror submitting the greatest number of exceptions and/or additions. Contracts may be executed and become effective as negotiations are completed.

For any proposed change(s), Offeror must provide the State of Utah's Standard Terms and Conditions for this solicitation in Microsoft Word format with redline edits. Additional terms or documents must be submitted in separate Microsoft Word documents. Offeror must also provide the name, contact information, and access to the person(s) that will be directly involved in legal negotiations.

Any mandatory required acceptance of an Offeror's terms and conditions may result in the proposal being determined to be non-responsive.

An award resulting from this RFP is subject to successful contract terms and conditions negotiation (if required). The State may reject a proposal if the offeror who submitted the proposal fails to sign a contract within 90 days after the contract award.

6 ★ Instructions To Supplier :

The issuing procurement unit may not accept a proposal after the time for submission of a proposal has expired.

Certification

Supplier Must Also Upload a File:

Prerequisite Content:

Offeror acknowledges that after completing the solicitation it must click on the link in the left hand menu bar labeled "Review & Submit", then check the box under the "Certification" heading to certify their bid. Then click the blue box labeled "Submit Response" in order to submit their bid.

Once the response has been submitted, Vendor will receive a confirmation that the response was successfully submitted. Vendors who fail to submit their response will not have their response reviewed and will be ineligible for further consideration under this solicitation. No faxes or hard copies will be accepted.

When submitting a proposal or modification to a proposal electronically, Offerors must allow sufficient time to complete the online forms and upload documents. This RFP will close at the closing time posted on SciQuest. If an Offeror is in the middle of uploading a proposal when the closing time arrives, SciQuest will stop the process and the proposal or modification to a proposal will not be accepted.

It is the Offeror's responsibility to ensure that they have completed all requirements, read and reviewed all documents, submitted all required information, uploaded all required forms, and submitted their proposal prior to the closing time. Even if an Offeror completes all sections, but does not submit their proposal, the State of Utah Division of Purchasing will not be able to receive their proposal and they will be deemed non-responsive.

Be aware that entering information and uploading documents onto SciQuest may take time. Offerors should not wait until the last minute to submit a proposal. Offerors are strongly encouraged to start the submission process early in order to allow sufficient time for completing their proposal. If an offeror is still working on its proposal when the solicitation closes then when the screen refreshes to the next page, it will receive a 500 Session Timed Out Application Error. After reopening the solicitation an offeror will see that the solicitation is closed and it will not be allowed to submit its proposal. As such, it is strongly recommended that proposals be uploaded and completed at least two days before any established deadline in the solicitation so that a proposal will not be received late and be ineligible for award consideration.

The Division will not consider any late Proposals. Proposals received after the deadline for submittal of Proposals will be returned to the Offeror, unopened.

State Rights

Q&A Board

GGA Bould		
Subject = Attachments- void of identity		Public Thread
Q: Just to be clear, is attachment D (1,2,3) the only attachment that needs to be anonymous?	Question added by: Anonymous	1/29/2020 1:56 PM EST
A: Attachment E also needs to be anonymous.	Answered by: Michael Glenn	1/29/2020 3:14 PM EST
Subject = Attachment B		Public Thread
Q: Can you please elaborate on the responsibilities of the Project Lead as indicated in Attachment B? Also, is this the only personnel title that we are meant to respond to?	Question added by: Anonymous	1/29/2020 11:11 AM EST
A: The project lead will be the primary person responsible for the contract and it's execution. This is the primary person we are asking for a response about.	Answered by: Michael Glenn	2/4/2020 11:13 AM EST
Subject = Peripherals Requirements		Public Thread
Q: The Peripheral Devices product category states that items should not connect to a user's network. Is this to mean that we cannot offer any printers, or other peripherals, that utilize a WiFi connection?	Question added by: Anonymous	1/29/2020 8:17 AM EST
A: That is correct. If there was to be a change in policy down the road that allowed for items that utilize a WiFi connections, then those would be allowed at that point. For now, they are not allowed.	Answered by: Michael Glenn	1/29/2020 5:37 PM EST
Subject = Value Added Items - Cost and Schedule Imp	act %	Public Thread
Q: Attachment D, D3 Value Added Items – Cost % impact and Schedule % impact seem to be correlated to the WRR that is no longer a part of the solicitation. Typically, these sort of metrics are services related, and this solicitation is product based. Will the State remove the Cost % and Schedule % requirement? If the State wishes to keep this requirement, will you clarify what is needed?	Question added by: Anonymous	1/27/2020 5:32 PM EST
A: Value Add can still be applicable for goods based solicitations. Things like "free shipping on orders over X" could be a value add and would have a cost savings percentage associated. Value add does not always need a Cost % or Schedule % if that value add isn't applicable to one. Both Cost % and Schedule % do not need to be included for each value add if it doesn't apply.	Answered by: Michael Glenn	1/29/2020 5:12 PM EST
Subject = Punch-Out Capabilities		Public Thread
Q: The solicitation details the requirements for an online marketplace platform. Considering the extensive breadth of the contract accessibility, how does the State intend to accommodate users who prefer integration with existing punch-out solutions?	Question added by: Anonymous	1/27/2020 12:51 PM EST
A: The State is looking for individual marketplaces for each respective vendor who submits, so these would be separate to any existing punch-out solutions for users to decide which contracts to use.	Answered by: Michael Glenn	1/27/2020 5:36 PM EST
Subject = Compliance Monitoring		Public Thread
Q: The solicitation explains that a more dynamic pricing structure ensures best value for users relative to a past practice of pricing based on percentage off list price. How does the State intend to monitor the resulting contract(s) to confirm users are receiving best value through the selected online marketplace(s) compared to other publicly solicited statewide contracts?	Question added by: Anonymous	1/27/2020 12:50 PM EST

A: By going after a market driven pricing structure, the State intends to receive the best value/pricing for the current market situation. It will also be up to end users of the contracts to compare and determine what is in their best interest/value price wise. If contracts have higher than market pricing, those contracts will receive less usage through comparison to the other contracts in the portfolio.

Subject = Managing Sign-Ons		Public Thread
Q: o In the solicitation, the State has noted the potential for multiple marketplaces. The RFP indicates that an online marketplace(s) with dynamic pricing would address the transactional, day-to-day needs of its users. However, several marketplaces may inhibit the speed and ease-of-use required to identify, compare price, and purchase transactional items. How does the State plan to manage a multi-marketplace, customer experience among its own users and eligible OMNIA users?	Question added by: Anonymous	1/27/2020 12:50 PM EST
A: The State publishes all contracts within a contract portfolio together so that end users can quickly see what contracts are out there. It is then on the end users to determine which contracts they wish to search and compare for the best pricing available to them. Once the end users have access to each marketplace, they will be able to quickly log in to each to search and compare pricing.	Answered by: Michael Glenn	1/29/2020 5:20 PM EST

A: I am not sure, however, it is worth hitting "Intend to Bid" to be able to click around the solicitation and ensure you can view the amendments. Then if you want to change to "No Bid" later on, you can do that. Most of the amendments revolved around adding attachments and modifying the market basket items.
