Letter received from Rodney Warner which will be made part of the record and copies were previously provided to the Mayor and Council.

#### Linda Harding – Email Received October 27, 2020 – Item No. 1

Noted she received a flyer that is vague and concerned that the City is not working with the owner to have an extension of the park closure which the earliest is January 2022 as the country may still be in a pandemic. She noted a previous email that she sent to the City Council during the last meeting regarding the park. She suggested the City Council postpone the closure of the park while still in the pandemic. For those choosing Option B are currently unable to look at any real estate as it has to be done virtual. For those considering Option C, which mentions giving affordable senior housing with no mention of price should already have been put in place when

package received with the three options or will it vary depending on the income of the senior.

Justin Katano – Email Received October 28, 2020 – Item No. 1

Noted on December 16, 2019, the City of Carson (the “City”) and Imperial Avalon LLC (“Faring”) executed a Reimbursement and Indemnification Agreement (the “Agreement”) [attachment to be made part of record] for the City to conduct an environmental review of Faring’s Project (as defined in the “Agreement”) and to prepare CEQA documents including an environmental impact report. He inquired about the following:

- (1). What is the status of these CEQA documents and when will they be completed for public review?
- (2). When are the public hearings on the environmental impact of Faring’s project expected to be held?
- (3). Why is Faring allowed to close the Imperial Avalon Mobilehome Park before approval of the Environmental Impact Report by the City? The City Planning Commission and City Council considered the RIR not a project and therefore not subject to CEQA even though the Agreement considered Faring’s development plans including its RIR collectively as a Project which implies the decision on the RIR was subject to CEQA.
