## Report to Mayor and City Council

Tuesday, June 07, 2022

Consent

### SUBJECT:

COVID-19 UPDATE (CITY COUNCIL)

### I. SUMMARY

#### COVID-19 Positive Case Information by the Numbers

Los Angeles County Department of Public Health COVID-19 case data as of 5/31/22 listed below.

- New Cases: 2,901\*
- Total Cases Reported: 2,974,197\*
- 7-Day Daily Average Positivity Rate: 3.34%
- Carson Total Confirmed Cases: 26,835

\*includes cases reported by Long Beach and Pasadena Public Health Departments

Additional COVID-19 testing information can be found at  
<https://dhs.lacounty.gov/covid-19/testing/>.

### County/City of Carson Vaccination Status

As of the date of this report, 86.5% of Carson residents 5 years of age and over have received at least one vaccine dose. The chart below shows vaccination rates for the City of Carson in comparison to the rates among the county.

Additional COVID-19 vaccine information can be found at <https://carsonca.gov/vaccine/>.

#### City of Carson specific updates:

- The COVID-19 pandemic has continued to affect many city employees. Employees who were unable to work due to being ill with the virus or for being contact traced were provided leave benefits under the Families First Coronavirus Response Act (FFCRA); Supplemental Paid Sick Leave of 2021 (SPSL) and Supplemental Paid Sick Leave of 2022 (SPSL22).
  - Number of employees who tested positive since start of Pandemic: 252
  - Number of employees who tested positive since January 1, 2022: 115
  - Number of FFCRA, SPSL and SPSL22 benefit recipients: 263
- Masks continue to be required by all city employees and participants in city recreational and educational programs and camps.

#### Public Health updates:

- To reduce risk, the County's Health Officer Order continues to require masks to be worn by everyone, 2 years of age and older, regardless of their COVID-19 vaccination status, on public transit and indoor transportation hubs within the county. This includes wearing masks on commuter trains, subways, buses, taxis, ride-shares, airport and bus terminals, train and subway stations, seaport or other indoor port terminals, or any other indoor area that serves as a transportation hub.

## II. RECOMMENDATION

1. RECEIVE and FILE.

## III. ALTERNATIVES

TAKE another action the City Council deems appropriate.

#### **IV. BACKGROUND**

COVID-19 is a viral respiratory illness caused by the SARS-CoV-2 virus, a novel coronavirus. According to the Center for Disease Control (CDC), COVID-19 is thought to spread mainly through close contact from person-to-person. Some people without symptoms may spread the virus. The virus spreads mainly from person-to-person between people in proximity with one another (within about 6 feet) by aspiration of respiratory droplets by an infected person.

#### **V. FISCAL IMPACT**

City costs are either being covered by existing department appropriations or new appropriations from the General Fund. All costs related to the COVID-19 pandemic are being tracked separately by staff who will continue to pursue all available reimbursements for eligible City costs incurred from FEMA or other sources.

#### **VI. EXHIBITS**

N/A
