1. IV. **BACKGROUND**

Section 2611(g) of the City's Municipal Code ("CMC") allows City, through its Purchasing Manager, to dispense with competitive bidding processes to purchase materials, supplies, equipment, or services by utilizing a cooperative purchasing program engaged in by any local, county, State, or Federal public entity or entities, even if the contracts and implementing agreements entered into by the participating entity or association under those cooperative purchasing programs were not entered into under a process that resulted in the contract being awarded to the lowest responsible and responsive bidder under CMC 2610(i); provided, that the selected bidder was selected in compliance with the competitive bidding or proposal process requirements of any participating entity or association within three years of City's approval of the City contract entered into with the selected bidder via cooperative purchasing. The City Council has decided that the benefits to the City of utilizing cooperative purchasing outweigh any incremental higher price that may be paid by the City in certain instances as a result of not soliciting directly utilizing the lowest responsible and responsive bidder standard under CMC 2610(i).

Sourcwell is a cooperative purchasing agency established to allow participating municipal agencies to reduce the cost of procurement by leveraging the benefits of contract purchasing. Through solicitations, Sourcwell contracts bring considerable value and efficiencies to members through nationally leveraged contracted suppliers with access to the highest quality products and brands.
