### Report to Mayor and City Council

Tuesday, October 06, 2020

Discussion

#### **SUBJECT:**

#### **COVID-19 UPDATE (CITY COUNCIL)**

#### **I. SUMMARY**

During this unprecedented pandemic, the City of Carson has had to adhere to Federal, State and County Executive orders, which initially helped slow the spread of the virus but it did so by shutting down our local businesses and severely impacting our economy. Our residents and businesses were directed by the State to follow stay-at-home orders, with the exception of employees who were determined to have an essential job or for residents to shop for essential needs. For the first time in its incorporated history, the City was not allowed to operate in any capacity outside of health measures dictated by the Federal, State and County governments.

The Governor began to reopen the state in various phases, allowing cities and businesses to reopen but with restrictions. This has helped fuel the resurgence of the economy; but at the same time thousands of positive cases have been reported in multiple counties causing the Governor to reevaluate the state's position and restrict several businesses to essential services and limited services at this time. LA County's restrictions are often stricter than the State's and where that is the case, the City of Carson is subject to the stricter provisions.

We continue to monitor and will report on changes to the State and County health orders to determine what additional services the City may provide to the community, as directed by the City Council.

#### **New Framework for Reopening the State's Economy**

California Governor Gavin Newsom on Friday, August 28, 2020 announced the Blueprint for a Safer Economy <<https://covid19.ca.gov/safer-economy/>>, a statewide plan for living with COVID-19. The plan imposes risk-based criteria on tightening and loosening COVID-19 allowable activities and expands the length of time between changes to assess how any movement affects the trajectory of the disease. The Blueprint builds on lessons learned from the first six months of the disease - and the new scientific understanding that has been collected - to create a new system for regulating movement and COVID-19

transmissions. It includes:

- At least 21 days to expand activities beyond the initial tier to ensure California better limits the spread of the virus;
- Mandatory metrics - case rates and test positivity - to measure how widespread COVID-19 is in each county and guide what is allowed;
- A uniform state framework, with four categories instead of 58 different sets of rules;
- A more nuanced way of allowing activity: Instead of open vs. closed, sectors can be partially opened and progressively add to their operations as disease transmission decreases; and
- A new process for tightening back up again quickly when conditions worsen.

Based on recent data, each county will fall into one of four colored tiers - Purple (Widespread), Red (Substantial), Orange (Moderate) and Yellow (Minimal) - based on how prevalent COVID-19 is in each county and the extent of community spread. That color will indicate how sectors can operate. For example, in the Purple (Widespread) tier where COVID-19 is widespread, restaurants can only operate outdoors. But once a county has achieved a lower level of virus transmission and moved into the Red (Substantial) tier, restaurants can operate with 25 percent capacity indoors or 100 patrons, whichever is fewer.

Even though the number of confirmed COVID-19 cases and hospitalizations has declined, L.A. County remains in the purple tier at this time. The County's Orders for what businesses may open are stricter than the State orders. Consequently, the ability for sectors to re-open will still require amendments to the local Health Officer Orders that are developed in consultation with the L.A. County Board of Supervisors. Visit the 'States COVID page <<https://covid19.ca.gov/safer-economy/>> to learn more about the State's tiered system.

County risk level	New cases	Positive tests
<b>WIDESPREAD</b> Many non-essential indoor business operations are closed	<b>More than 7</b> daily new cases (per 100k)	<b>More than 8%</b> Positive tests
<b>SUBSTANTIAL</b> Some non-essential indoor business operations are closed	<b>4 - 7</b> daily new cases (per 100k)	<b>5 - 8%</b> Positive tests
<b>MODERATE</b> Some indoor business operations are open with modifications	<b>1 - 3.9</b> daily new cases (per 100k)	<b>2 - 4.9%</b> Positive tests
<b>MINIMAL</b> Most indoor business operations are open with modifications	<b>Less than 1</b> daily new cases (per 100k)	<b>Less than 2%</b> Positive tests

As of the preparation of this report on September 28, 2020, Los Angeles County Public Health Department has reported 1,840 confirmed cases of COVID-19 within the City of Carson, with 267,801 cases within Los Angeles County (which includes cases reported by the Long Beach and Pasadena Health Departments). This underreports the actual spread of the virus since those who do not display symptoms or are otherwise mildly impacted have not been tested.

## II. RECOMMENDATION

1. DISCUSS and PROVIDE direction

## III. ALTERNATIVES

TAKE another action Council deems appropriate.

## IV. BACKGROUND

On March 17, 2020, the City Council unanimously voted (5-0) to declare a local emergency in response to COVID-19. The declaration of a local emergency enables the City to be more efficient and effective in its response to the outbreak, puts in place a framework that supports the continuity of essential public safety services, seeks and utilizes mutual aid, and ensures the City has all available tools at its disposal to keep the community safe. The declaration also allowed the City to seek reimbursement of funds from the State and Federal government.

With only essential services being provided, the City of Carson saw a declining number of daily cases due to social distancing and other restrictive measures. After the Governor's implementation of reopening phases, which were intended to jump start the state's economy, there has been a massive surge in positive COVID-19 cases. The Governor identified multiple counties throughout the state of California where this was a concern, including Los Angeles County, and reversed course to restrict some businesses and temporarily close others.

The City has seen a rise in the number of employees who have tested positive for the COVID-19 virus. This has led the City Manager to reduce services back to those that are essential and to reduce visitation by the public to City Hall by limiting appointments to two (2) days a week. To further combat and slow the spread of COVID-19, the following additional measures have been set in place:

1. Deep Cleaning Services by a professional cleaner of City Hall, Community Center, Corporate Yard and City Parks.
2. Sneeze Guards and Stanchions purchased to separate the public and staff throughout all City facilities.
3. Providing Telecommuting to all employees who are eligible and meet criteria.
4. Reducing staff to be physically present on a needs basis.

Discussed below are recent initiatives and programs initiated by the Disaster Council and the City Council since the Declaration of Emergency.

### **Food Programs**

Immediately following the Declaration of Emergency, the City Administration mobilized a Grab 'n Go lunch program for seniors, Carson Essentials To-Go Program and a grocery delivery program in partnership with Norms. This program has received funding by the Watson Land Company, the Carson Company, the Carson Community Foundation and Phillip 66.

In addition, in partnership with the Lighthouse, YMCA Meals on Wheels, and the ERB Foundation, the City is providing meals and food kits to seniors and homebound residents. <http://ci.carson.ca.us/CoronaVirus.aspx>

Due to the change in the Los Angeles County funding structure, the Meals on Wheels program will have additional meals for pickup while fewer meals will be delivered. For those who require delivery of meals, services for delivered meals will continue without

interruption.

### **Food Program Stats as of September 28, 2020:**

Grab-n-Go: 79,123

Meals on Wheels Delivered by city staff: 11,146

Resource Call Center calls handled: 11,636

Carson Essentials to Go: 1,245

### **Carson Grab-n-Go Program:**

The Lighthouse has agreed to extend the Grab-n-Go Program through the end of June 2021. Their continued partnership has provided 600 meals daily at no cost to the city. For the last 12 years, The Lighthouse has provided meals for the City's Kids Club Program and Summer Day camps.

### **Carson Essentials To Go Program:**

This program was created to support homebound and vulnerable residents in need with a safe alternative to grocery shopping during the pandemic. The City of Carson appropriated \$150,000 from the general fund to start this program, but generous donations from Phillips 66, Carson Companies, Watson Land Company, and Carson Community Foundation and amounts collected from those receiving the groceries will cover the program's costs and provide Carson families with affordable groceries delivered to their home (following a safe, non-contact protocol). Local businesses and organizations made generous contributions that allowed the packages to be discounted for local residents. The City of Carson partnered with Norms Restaurant to create a variety of affordable grocery packages. City employees take orders over the phone while Norms staff members package the items. Carson employees deliver the packages to homes using proper PPE and social distancing. This program continues to be popular with our residents. Because it is fee based with a subsidy through the generosity of our contributors, we foresee continuing this program for as long as funding and staff are available.

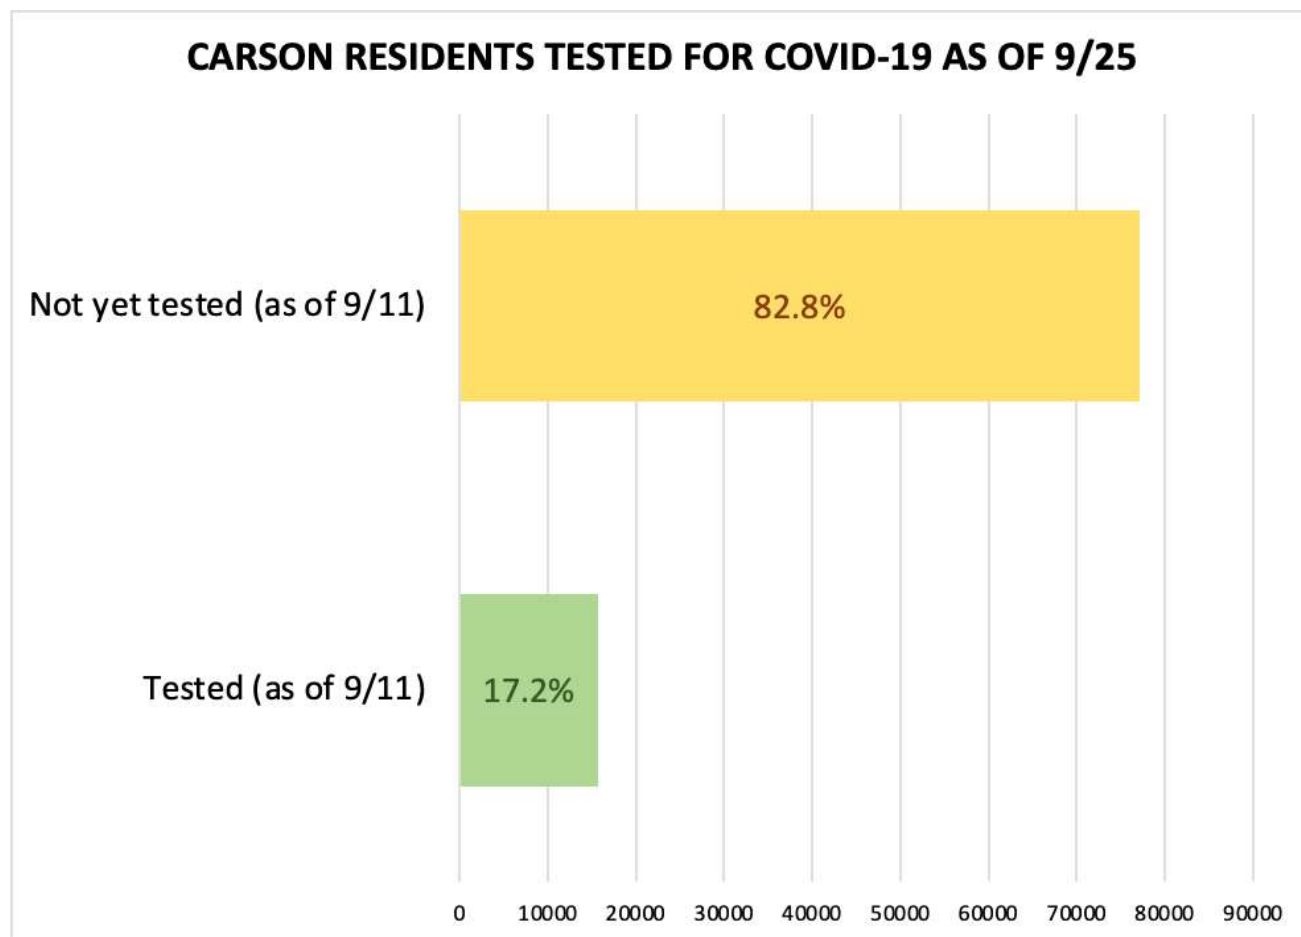

### **COVID-19 Test Site**

The City was able to arrange, at no cost to Carson, free COVID-19 testing for residents and non-residents alike in collaboration with a nonprofit entity, U.S. Health Fairs. It is one of the first facilities to allow testing without the requirement that the individual has symptoms or was exposed to someone with COVID-19.

**Test Site and Call Center Stats as of September 29, 2020:**

COVID Testing Call Center calls handled: 6,193

COVID Tests Administered: 16,369

Total Tested thru 9/25	729
Total Positive Cases	14
Carson Residents Tested	216
Carson Positive Cases	7

**Ethnicity Distribution of Carson residents tested**

### **Kids Club/Summer Day Camp**

Per guidance provided by State and County authorities, the City was permitted to reopen a number of programs, namely Kids Club/Summer Day Camp and the Aquatics Program.

On August 14, 2020, Summer Day Camp transitioned to Kids Club as children went back to school. The first day of Kids Club was August 17, 2020. The following table summarizes the number of participants for the week of September 28, 2020.

#### **Week of September 28, 2020**

<b>PARK</b>	<b>ALL DAY</b>	<b>AFTERNOON</b>	<b>TOTAL</b>
Calas	13	1	14
Carson	0	8	8
Del Amo	6	0	6
Dolphin	13	0	13
Veterans	8	6	14

### **Aquatics**

The Aquatics Program reopened for limited service on July 29, 2020. Foisia Pool and Dominguez Aquatic Center are open Monday, Wednesday, and Friday, from 10:00 AM through 7:00 PM. Carson Pool and Hemingway Aquatic Center are open Tuesday, Thursday, and Saturday, from 11:00 AM through 7:00 PM. Family Swim is offered at all

Aquatic facilities; Lap Swim at Foisia Pool, Dominguez Aquatic Center, and Hemingway Aquatic Center; and Swim Conditioning at Foisia Pool only. Protocols have been established at all sites to ensure the health and safety of both staff and participants. Until the positive cases of COVID-19 decline, we will not increase these hours.

### **City Hall Appointments**

To date, City Hall is currently operating by “Appointment Only” for necessary services. Residents can visit the City’s website to contact the department they are interested in conducting business with or can call the main City Hall Office line at (310) 830-7600.

Below are the numbers of residents who have come to City Hall for services:

For the week of September 21<sup>st</sup> - September 24<sup>th</sup>:

<b>CITY HALL</b>	<b>APPOINTMENTS</b>
Human Resources	9
Purchasing	2
Public Works	3
Building & Safety	40
City Clerk/City Manager	10
Business License	26
Community Development	1
<b>TOTALS</b>	<b>91</b>

To minimize the number of residents coming to City Hall, Building & Safety continues to promote its online Plan Submittal process and to determine what additional technological improvements can be made.

### **Small Business Programs**

The City of Carson, in partnership with the California Community Economic Development Association (CCEDA), launched the Carson Small Business Coronavirus Business Assistance Program to provide support for small business impacted by the COVID-19 virus and associated restrictions. The program has been providing technical assistance to businesses seeking Emergency Injury Disaster Loans (EIDL), Paycheck Protection Program (PPP) funding (now ended), other loan programs as well as general business assistance in managing this crisis. Businesses in Carson are eligible for emergency loans of up to \$10,000 from the City of Carson’s own Loan Program funded with \$500,000. Please visit **carson.cceda.com** or call (213) 348-7504.

At the direction of the Disaster Council, staff created a Temporary Outdoor Dining and Retail Operations Expansion Program to support businesses adversely affected by the

County's social distancing requirements. The City has streamlined the process by waiving permit fees allowing the Community Development Director to approve the requests and allow the companies to restart their operations as soon as possible. Staff mailed the notice and application to 330 restaurants and 1800 retail establishments. The next phase of this effort will be visiting shopping centers to hand-deliver hard copies of the information and application.

Businesses that have responded are service oriented businesses such as beauty salons and nail shops (7), places of worship (1), and restaurants (4) with requests including but not limited to expansion onto the sidewalk and parking lots.

### **City Events**

When the emergency was first declared, the City Council cancelled all City events through the end of the 2020 calendar year. On August 4, 2020, the City Council extended the cancellation of all City sponsored events through March 31, 2021. This decision recognized that the first wave of the coronavirus has continued since the initial outbreak with record numbers of new infections in Los Angeles County. With growing concerns of the expectant second wave during the upcoming flu season, the State and County have continued their orders disallowing the gathering of masses of people such as would occur at City events. Staff will continue to monitor the status and provide updates and recommendations to the City Council.

### **Outdoor Parks**

As of September 30, 2020, the State of California released guidelines which must be adopted or modified by Los Angeles County before we are allowed to open. Once guidelines have been adopted or modified by Los Angeles County, the City will notify and educate the public through social media, City website and signage at City Park facilities advising residents what is being reopened based on the enforcement of guidelines to help prevent the spread of Covid-19. The City will continue to take precautions to ensure the health and safety of park guests, visitors, staff and the community.

## **V. FISCAL IMPACT**

Staff costs are being incurred by the City for the coordination, surveillance, communication, and management of the COVID-19 local emergency, as well as costs for procuring related services and supplies. City costs are either being covered by existing department appropriations or new appropriations from the General Fund. All costs related to the COVID-19 pandemic are being tracked separately in the City's Disaster Fund and staff will pursue any available Federal and State reimbursements for eligible City costs incurred. The City will realize a small savings as a result of City Council's action to further extend and suspend City sponsored events through March 31, 2021.

**VI. EXHIBITS**

None
