IV. BACKGROUND

In November 2020, the City of Carson hired a consultant to gather and consolidate information from the City's elected officials to facilitate a discussion of mission and vision statements, and an agreed upon list of the City's top priorities. The City's executive staff also provided its input. The Workshop was held on February 4, 2021, where the City Council discussed a vision and mission for the City of Carson along with a set of work plan priorities. The staff report and materials provided at the Workshop are included as Exhibit No. 2.

The top priorities that the City Council identified for the work plan included Economic Development / Community Benefits, Quality of Life Improvements (infrastructure, maintenance, and beautification), and identifying Governance Policies pertaining to districts in the City. The full Workshop Report including the Priority Areas and Work Plans is included as Exhibit No. 1.

V. FISCAL IMPACT

The fiscal impact of the work plan established by the City Council during the workshop will depend on the details of each item. Staff will present the approved items for future City Council review and approval as part of our budget process as appropriate.
